

Law Enforcement, Prosecutors, Judges, Probation and Parole, Treatment Providers...all play an important role in the swift identification, certain punishment and effective treatment of the hardcore drunk driver!

To assist with the formation and implementation of this multi-disciplinary approach, The Century Council has teamed up with the American Probation and Parole Association to develop the:

HARDCORE DRUNK DRIVING COMMUNITY SUPERVISION GUIDE

A Resource Outlining Probation & Parole Challenges, Effective Strategies and Model Programs

This new resource is designed to:

- Assist Probation and Parole professionals in recognizing the complexities of hardcore drunk driving cases and identifying strategies to effectively supervise these offenders, throughout the various stages of the justice process; and,
- Promote the implementation of a multi-disciplinary team approach to the community supervision of the hardcore drunk driving offender.
